# All Incidents Must Be Reported

- On this project it is a requirement that all incidents are reported, this includes near misses.
- The intention with this is to ensure that we don't have unsafe behaviors and conditions in the field unaddressed.
- It is also to facilitate learning from everything.
- If we do not analyze an incident, then we can't be sure that we are learning and adjusting our methods to prevent similar incidents from occurring.
- We also have a duty to share lessons learned to other subcontractors on site, hence the need to report.
